

Wind Turbine Winching Platform Approval

Aberdeen Bay Windfarm

The above named Wind Turbine Winching Platform has been inspected in accordance with CAP 437 and HCA requirements.

The Wind Turbine Winching Platform has been found suitable for helicopter winching operations only, subject to:

1. Such non-compliances and restrictions as may be listed below; and,
2. Authorization by the helicopter operator.

This approval shall be applicable to all Wind Turbine Winching Platforms, Type -Vestas V164, in the Aberdeen Bay development that are designed and built to the same specification as the above named wind turbine winching platform.

Wind (T°)	Kts	Limitation /Comment
		• Operations limited to Daylight only with minimum visibility of 6Km and cloud base of at least 800ft
		Non-Compliances
Misc.		Top of outboard passive cooler and safety rail – 2m above winching area

Valid for helicopters with Maximum Rotor Diameter:	“RD” = 12.33m (Single rotor)
This approval shall remain in force until (unless previously revoked or suspended)	05 June 2028

Notes:

1. This approval is non-transferable.
2. The approval holder is responsible for ensuring that the winching platform, its environs and related equipment are at all times fit for purpose.
3. This approval shall cease to be valid if:
 - ♦ Changes of ownership or name of installation are made without notification to the HCA.
 - ♦ Changes to the winching platform, its environs and/or related equipment are made without prior agreement of the HCA.
